Student Code of Conduct

Behavior Philosophy

Appropriate conduct in the school is of extreme importance to students, school staff members, and parents. The maintenance of orderly conduct of students is necessary in every school situation to ensure health and safety of all and to maximize learning.

The District's fundamental philosophical basis of appropriate conduct is that students are responsible for their own actions and are expected to show respect and consideration for the rights of others. These expectations are the basis upon which our conduct codes are formulated.

Arizona law authorizes school employees to act "in loco parentis" (in place of parents). Therefore, all students are subject to the authority of all faculty and staff members during the regular school day and while attending any school function.

The regular school day includes the time of travel to and from the student's residence. Any student who is insubordinate or disrespectful to any faculty or staff member or who violates generally accepted rules of good citizenship and behavior will likely be referred to the office. **Students must comply with reasonable requests made by faculty, staff and administration.**

Students who do not adhere to appropriate behavior are subject to both District and school discipline policies.

Scope of the District's Authority

Policies and regulations pertaining to student code of conduct are extended to include, but not limited to:

District property

School campuses

Going to and from school

At or near school bus stops and in District vehicles

Off campus during the normal school day, including release periods

At school events, whether held on or off campus

Any other circumstances where the District may lawfully exercise jurisdiction over student conduct.
